CASUAL FINE DINING & WINE

EST. 2018

Welcome! In the Salt & Silver Latin America Restaurant, we are currently serving an extraordinary menu with a predominantly Latin twist.

Since 2014 we have been collecting special techniques, ingredients and inspiration from all over the world, which we reinterpret in our own style and develop into our own dishes.

Inspired primarily by Mexico and Peru, Salt & Silver's cuisine is characterized by strong aromas and a refreshing interplay of acidity and spiciness. However you can also look forward to taste nuances from Korea and Japan in our current menu.

Nevertheless, we mainly use local main ingredients from sustainable sources and our own cultivation, which we refine with sophistication and ingredients from the countries we have visited.

This creates an independent Salt & Silver taste experience that we have been surprising our guests with for over six years.
