THE YALLAH – COMBO

/ available from two persons

We recommend our culinary tour:

Discover the diversity and joie de vivre of the oriental food culture with our „YALLAH - KOMBO“. We serve highlights of the menu and daily specials in several rounds, to share, in the middle of the table. The bigger the group, the more dishes - and of course all the more fun!

PER PERSON 59.00 *(Allergenes on request)*

HERITAGE

Those who process as much food as we do, not only have a responsibility to their guests for quality and taste, but are also accountable to our environment. That is why we work every day to build our supplier and producer chain as ecologically sustainable as we can. We want to be as independent as possible from the "food industry" and not be part of factory farming and overfishing of the world's oceans. For these reasons, we depend on partners whose ethical standards are just as important. We would like to introduce some of them to you here.

GRÜNKORB

In the organic nursery Grünkorb, we grow our own products together with gardener Philip Frenßen and try to become a little bit more sustainable and self-sufficient every day. The products that we grow there are at least BIO certified, some of them with the Demeter seal. Here quality is lived sustainably and regionally with love and understanding.

HARB FAMILY

Adib Harb, who was born in Lebanon, was the first to start importing food from the Levant region to Berlin in 1980. More than 35 years later, the children Oliver and Theresa run the company and are our source, contact person and inspiration all in one. Harb GmbH supplies us with spices, molasses, herbs and many other exotic foods from the culinary rich Levante region.

BUTCHERY BURMEISTER

The countryside butchery Burmeister from Viöl exists since 1901 as a family business and supplies us with beef and lamb. The lambs come exclusively from North Friesland and the cattle come without exception from sustainable freerange farming within a radius of 50km.

HUMMER PEDERSEN

Our longtime partner for fresh fish. Together with Karl and Micha, we scan the market in search of local products, stock-friendly fishing methods and sensible and sustainable farms. The challenge to use fish from the North Sea or Schleswig-Holstein as much as possible means a big investment of time and money and we take this task very seriously. In return, thanks to Hummer Pedersen, you can enjoy absolute premium quality with a clear conscience.
